

SPECIFICATION SHEET

ALUMINUM & GLASS PANEL RAILINGS

PRODUCT TYPE:

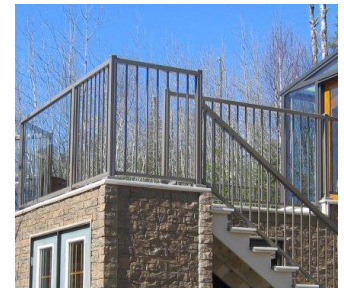

Aluminum and Glass Railings

Aluminum Picket & Structural Framed Glass Railings:

- Unique crossover design allows the handrails to run continuously over the posts for an unparalleled level of safety
- Pickets are locked in with fasteners and spacer blocks that are captured in the bottom and top rail
- Meets IRC and IBC codes and engineering requirements for residential and commercial use
- Can be built A.D.A. compliant
- On-site fabrication and non-welded design offers the perfect custom fit
- Durable baked-on finish eliminates painting and staining

Frameless Glass Railings:

- Heavy wall glass channel with deep pocket to safely contain the glass.
- Works great alongside your wood, steel or aluminum columns.

PICKETS

FRAMED GLASS PANEL

FRAMELESS GLASS PANEL

FINISH

Meets AAMA 2604 standards. Polyester Powder Coatings and Duracron® Thermosetting Acrylic Enamel finishes assure a long lasting, trouble-free finish that is surface-impact, corrosion and scratch resistant

PICKET OPTIONS

TOP RAILS

CAPS

Specially designed caps provide a smooth, clean appearance while concealing fasteners from view

POST COVERS

Exclusive die-cast aluminum post covers hide all unsightly bolts and hardware

PICKET SPACERS

Snap-in spacers eliminate unsightly gaps between the pickets. Our unique system eliminates unsightly screws, protruding splices or bulky couplings, because our railings are custom fit to your requirements

TEMPERED GLASS PANELS

Clear

Tinted

Frosted

POST OPTIONS

Height: 36" or 42" height. Width: 2-1/4" (custom heights available)

3"

5-1/2"

LIGHTING (option)

Low voltage LED lights built right in

NON-COMBUSTABLE

Aluminum does not ignite, burn and will not deteriorate from UV rays

WARRANTY

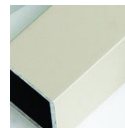

10 year warranty on aluminum components

FRAME COLORS

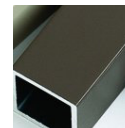

White

Desert Sand

Earthstone

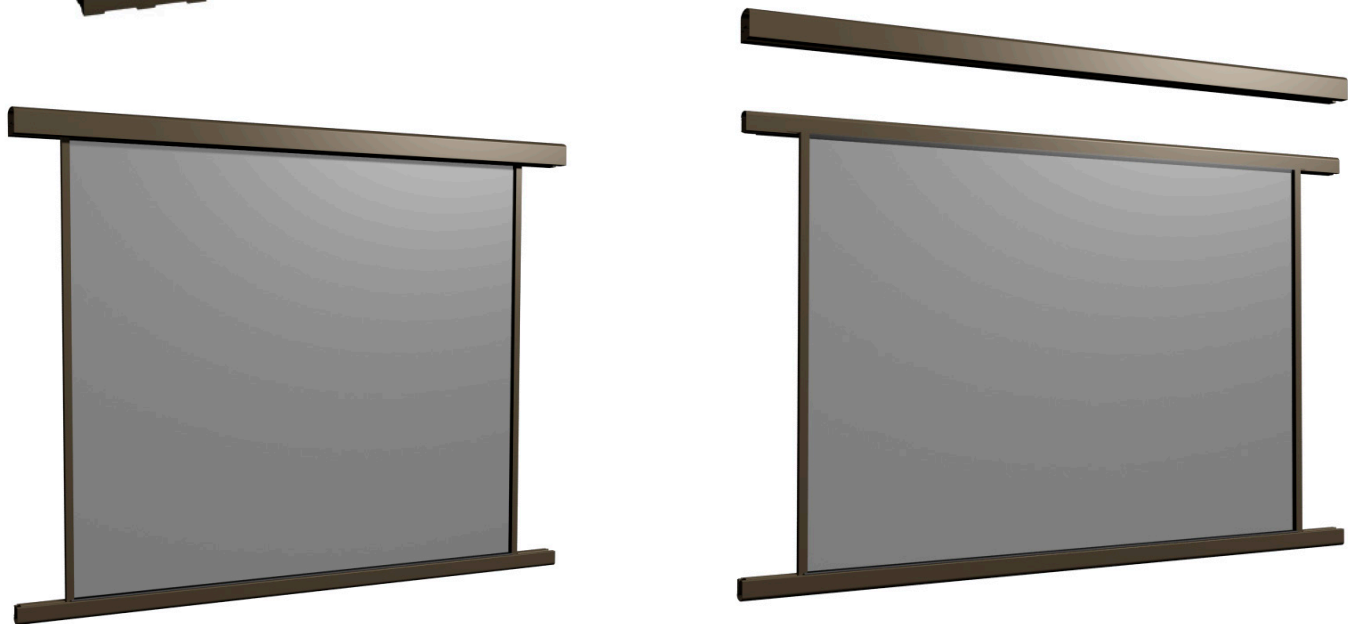

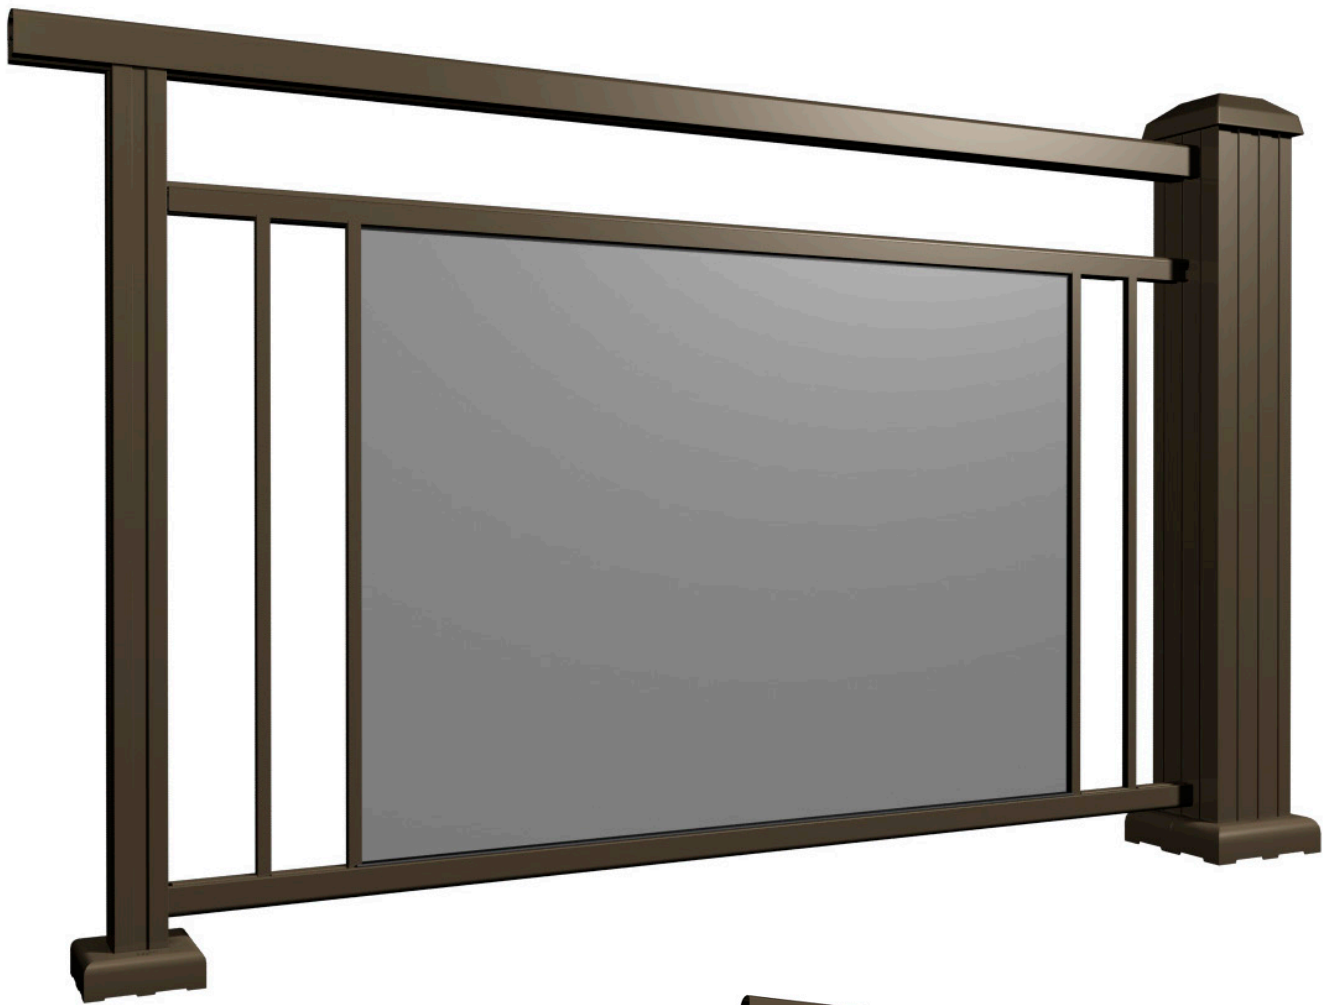

Black
