## Craft-Bilt earns two honors

Craft-Bilt Manufacturing Co. of Souderton won two Outstanding International Achievement Awards for its Aristocrat fabric awnings. The awards were presented at the 2006 Expo of the Industrial Fabric Association International held in Atlanta, Ga.

For nearly 60 years, the International Achievement Awards have recognized design and technological innovation and excellence in the specialty fabrics industry.

The awning projects entered into the competition by Craft-Bilt were large awnings that presented unusual installation challenges. The first award was a pool and gazebo shading project in Baltimore, Md., installed by A. Hoffman Awnings. The second was at the Heidelberg Country Club near Allentown, installed by A.A.A. Awnings of Feasterville.

Craft-Bilt, which celebrates its 60th anniversary this year, manufactures awnings under the trademark Aristocrat, as well as numerous private label awnings.
